

JOURNAL

OFFICE OF LEGISLATIVE COUNSEL

Thursday - 28 January 1960

1. The Director gave an intelligence briefing to the Joint Committee on Atomic Energy beginning at two o'clock. The briefing lasted for approximately three hours. There will be a transcript of the briefing available to the Agency. See Memorandum for the Record dated 2 February 1960.

2. Representative Leslie C. Arends (R., Ill.) telephoned the Director apparently just having returned to Washington. He inquired of the Director about the Symington release and asked if Mr. Kilday was to hear the Director soon. Mr. Arends evidently had not yet read the Director's speech on this. (Within about five minutes, [redacted] telephoned Arends' office and advised Mr. Arends that a copy of the speech had been left with his office this morning and he acknowledged that it had just been handed to him.)

3. William Lowell, Editorial Director of the Senate Internal Security Subcommittee, called to advise that General Cabell's testimony before the Subcommittee in November on Communism in Latin America would be released this Sunday, 31 January 1960.

STATINTL

Legislative Counsel
